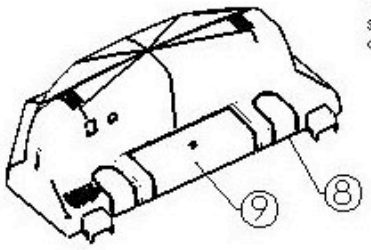
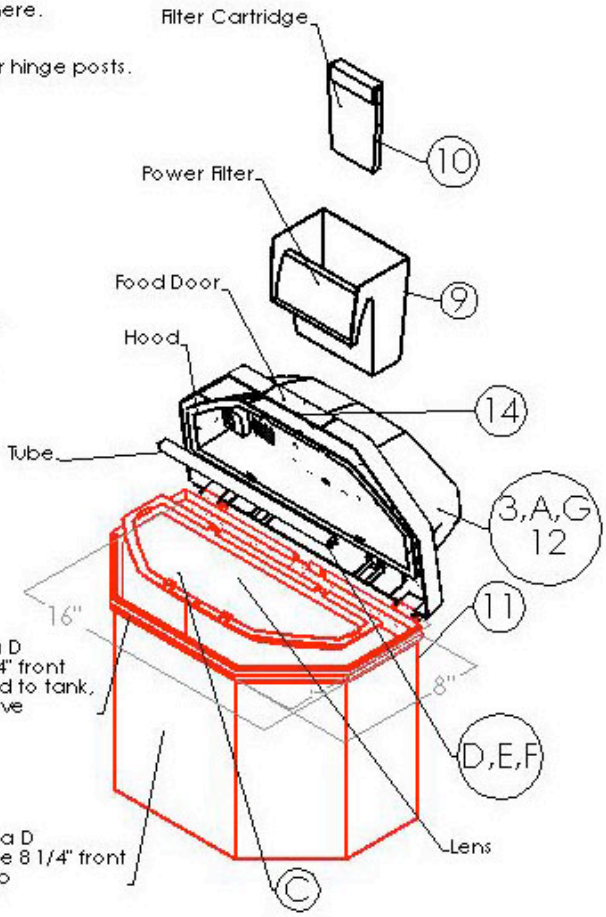
HAWKEYE INTERNATIONAL

ASSEMBLY INSTRUCTIONS FOR THE AQUA BRIGHT V GALLON AQUARIUM
SAVE THESE INSTRUCTIONS

To Get Started
Note: Numbers in the illustration correspond to the steps provided here.
1) Remove aquarium from the packaging.
2) Rinse the tank with warm water - no soap.
3) Place the hood down onto the rim making sure the slots are over hinge posts.
4) Rotate hood upward until it rests on the hinge stops.
5) Add rocks and decorations.
6) See "Aquarium Setup Tips" section of the manual before operating this unit.
7) See "IMPORTANT SAFETY INSTRUCTIONS" section of the manual before operating this unit.
8) If you are adding a heater, cut out one of the key holes in the back of the hood using a side cutting pliers.
9) Assemble the power filter based on the instructions for the one that came with your aquarium. If the filter is external use a side cutting pliers to remove the rectangle piece in the back center of the hood.
10) Lower the filter cartridge in between the slots in the power filter. Follow instructions on the package.
11) Add water to the fill line located on the back of the tank and allow to circulate for at least 48 hours before adding fish.
12) Rotate hood back down onto the rim.
13) Follow insructions on de-chlorinator to treat water.
14) Use the food door to feed the fish.




TO RELAMP
A) Unplug hood.
B) Rotate hood upward until it rests on the hinges.
C) Shift the lens from front to back and pull down to remove.
D) Rotate fluorescent tube and remove.
E) Insert new T5 8 watt tube into the sockets and rotate.
F) Reinsert lens into hood.
G) Lower hood back onto the rim.
